Important Information

Medically Necessary: Some benefits will only be payable if they are considered to be “Medically Necessary.” In order for any care, service, supply or other matter to be considered “Medically Necessary,” it must be ordered to be provided to an insured person by a physician or registered health care professional and be one which Manulife determines is appropriate and consistent with the symptoms and findings or diagnosis and treatment of the insured person’s illness or injury. It must also be provided in accordance with generally accepted medical practice on a national basis, and be the most appropriate supply or level of service which can be provided on a cost-effective basis.

Medically Underwritten: If/when a plan is “Medically Underwritten” or “requires a medical questionnaire,” you must disclose any medical condition, injury or illness that occurred or existed on or before the date of your application, regardless of whether you

went to see a doctor about the condition or were given a diagnosis, or whether or not you believe that it is important. The premium charged and/or benefits offered could be subject to adjustment or modification of coverage, or declined based on your or your family’s medical background. This will be determined after an evaluation of the information provided on the medical questionnaire.

Hospitalization: Manulife cannot guarantee the availability of private or semi-private hospital accommodation.

Acceptance Period: If your and/or your family’s medical history is such that a higher premium is required or that special conditions will be applied to benefits (see Medically Underwritten), you will be notified in writing prior to your decision to accept the coverage. If at that time you decide not to proceed with the coverage, your initial payment will be returned and your application cancelled.

Effective Date of Coverage: The first day of the month following final approval of the application.

Generic Drugs: A generic drug is a generally less expensive alternative to an interchangeable brand-name drug product. Please note that not all drugs have a generic equivalent. If a non-generic drug is purchased, payment will be based on the lowest generic drug cost equivalent. If no generic brand exists, payment of the brand-name price will be made at the co-payment level of your plan.

Anniversary Year: Each successive 12-month period following the effective date of your policy.

Benefit Year: Each successive 12-month period following the date a claim for a specific benefit is first incurred under your policy.

Coverage solutions for CARP members, from the providers you can trust:

*If you are a Quebec resident, you must be registered under RAMQ Prescription Drug Insurance Plan.

**Manulife cannot guarantee the availability of this benefit indefinitely.

†The insured may, within 30 days after receiving this policy, cancel it. Any premium paid up to the end of the 30-day examination period will be refunded, less any claims paid. Where claims paid exceed premiums, the difference must be repaid to the insurer immediately.
